

The Burchfiel Grove and Arboretum

Established by donations from the Norman Burchfiel Family in the mid 1990's, the Burchfiel Grove and Arboretum was established to add both beauty and ever lasting educational opportunities for the Citizens of Sevierville and the many visitors to the area. This Self-Guided Tour identifies 73 Species of Trees along both the East and West Bank of the West Prong of the Little Pigeon River. At each tree, there exists a sign stating an identifying number that corresponds with the numbers listed on in this brochure. At each tree, there exists specific information about each individual tree.

The Grove and Arboretum has three goals:

Educational: The Burchfiel Grove and Arboretum provides a diversity trees native and non-native, common and unusual. The Grove and Arboretum provided the Common Name of each tree, the scientific name of each tree and the anticipated height and width the tree would grow when mature. This information provides citizens, horticulturist, and students a visual concept plus hands on learning as well as an up close and personal view of how the tree will mature in all types of potential settings.

Beautification: The Burchfiel Grove and Arboretum provides over 70 different species trees along the Memorial River Greenway in downtown Sevierville, Tennessee. These trees add beautification for walkers, joggers and local residents that live along the West Prong of the Little Pigeon River.

Community Resource: The Burchfiel Grove and Arboretum will provide homeowners, businesses, and local landscapers the opportunity to see mature trees before selecting trees for landscaping opportunities in our community. Also, this area provides for seeds and cuttings of unique and common species which can be made available through special requests.

The Burchfiel Grove and Arboretum is managed by the professional staff of City of Sevierville Department of Parks and Recreation along with assistance of the Citizens appointed to the Trees/Trails and Beautification Committee. Individual tours of the Arboretum by the professional Landscaping Staff can be arranged by calling 865-453-5441 or emailing bparker@seviervilletn.org.

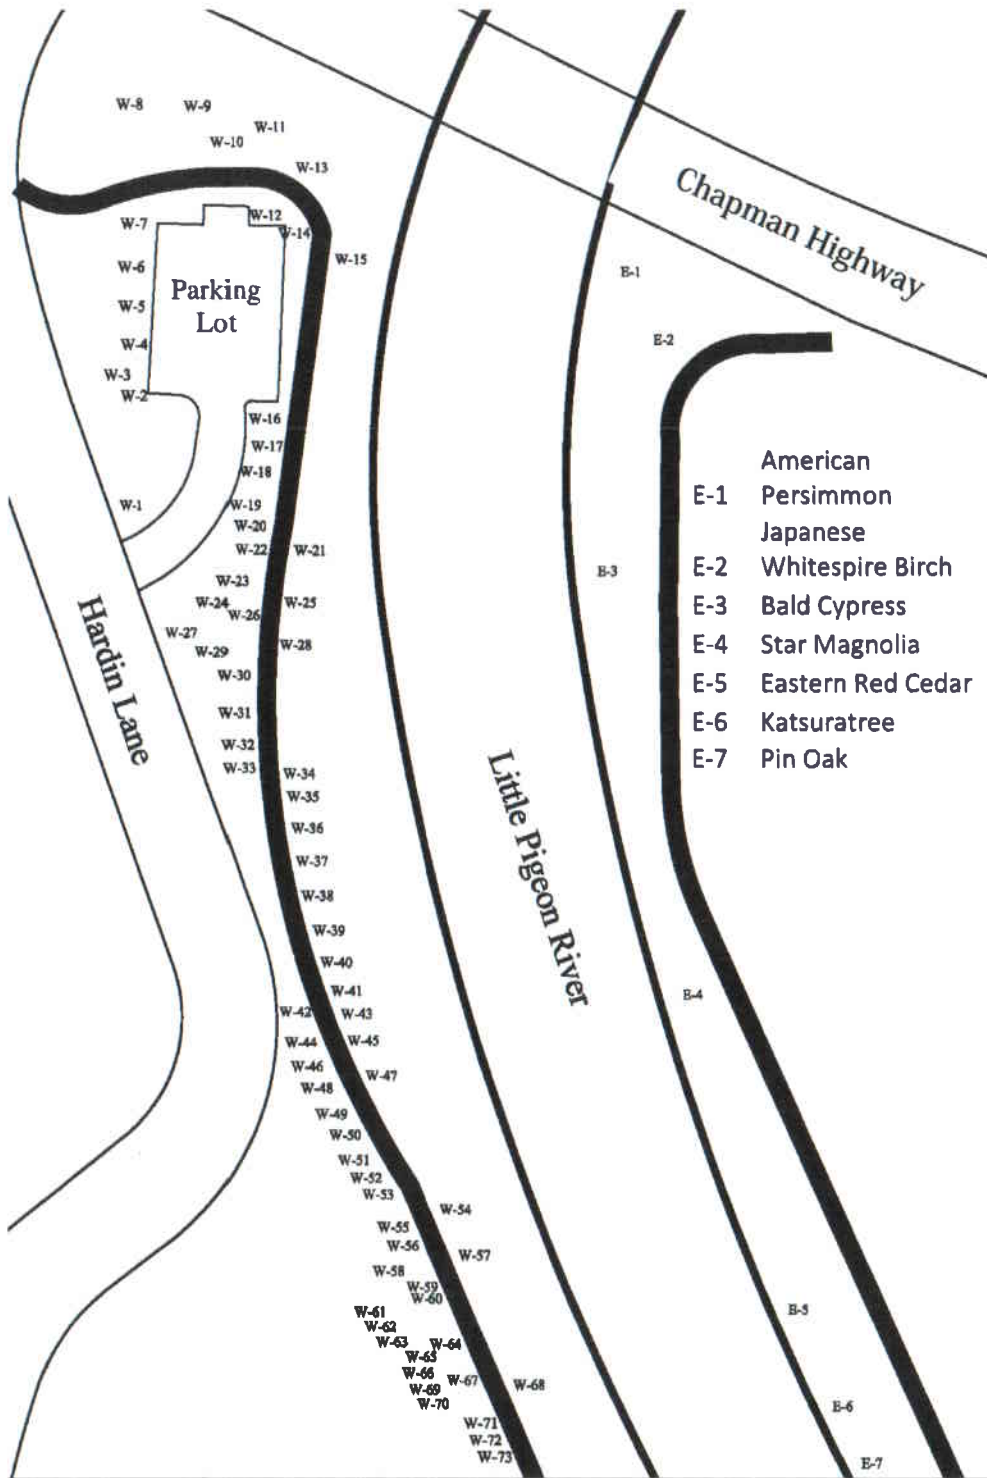

Enjoy the Burchfiel Grove and Arboretum and then tell a friend or family member about what you saw....
